

Memory Game: Parts of the Body (Part 2)

Mga parte ng
katawan

Memory Game Directions

The first page of this lesson activity is a vocabulary page of body parts with a picture and its label in Tagalog and English. Learn and practice the words first before playing the Memory Game.

The second through fourth pages are the cards for the Memory Game. Page 2 has the unlabelled picture cards. Page 3 are the labels (in Tagalog and English). Cut out the cards. Lay them in rows on a table so the blank side faces you. Flip two cards at a time until you make a match. Use your memory to see if you can remember where the matches are.

The last page has only the Tagalog word. You may use these cards as an extra challenge when you are ready to match the cards without the English translation.

Have fun!
