

Tagalog Memory Game: School Words

Directions:

- Cut out the picture vocabulary cards on the next few pages.
- Review and become familiar with the Tagalog vocabulary for the school-themed words.
- Separate the cards into two piles: 1. Pictures and 2. Words.
- Mix the cards within each pile and place them face down on a table.
- Flip over a card from the picture pile and then a card from the word pile to see if they match.
- If they do not match, flip them back to facing down on the table.
- Continue flipping two cards until you have matched all of the cards.
- (If you are playing with other people, those who make a match can have another turn).
